THE NEW-YORK POLICE CORRUPTION.

NOT EXACTLY A SURPRISE.

From The Springfield Republican. An interesting feature of the exposure of corrup-tion in the New-York Police Department, which should not be overlooked, is that no one seems sur-prised.

SEEMS TO HAVE TRUTH IN IT From The New-York Herald.

From The New-York Herald.

The police will have to think seriously of the "green-goods game" hereafter. George Appo, a lifelong criminal, testified before the Lexow Committee yesterday, and for two hours and a half held the breathless attention of all who were within sound of his volce. The story he told of police collusion with "green-goods" swindlers in this city may or may not be inspired by a desire for revenge. No one who reads it can fail to be convinced that, whatever Appo's motive may be, his story contains a startling amount of truth.

A PAYING INVESTMENT.

From The Auburn Advertiser. The New-York citizens who, after Flower's veto of the appropriation for the expenses of the Lexow investigating committee, put up their own private funds to carry on the work must be well satisfied with their investment.

A GANG OF BANDITTI.

From The Baltimore Sun. The disclosures made daily by the Legislative Committee which is investigating the New-York Police force are becoming more and more astounding. The preservation of the peace and good order of the city, the protection of the lives and property of citizens, have been intrusted in part to a gang of lawbreakers, many of whom are shown to be but little better than an organized and uniformed banditti.

A STRONG PRESUMPTION.

From The Evening World. There is no direct evidence against the police in this testimony, but a strong presumption that some of them are in one pay of the green-goods men.

THE POLICE CAPTAINS HARD HIT. Enough testimony has been adduced already to place almost every police captain in the city in a most embarrassing position, and it looks as if they would find it extremely difficult to clear themselves of the serious accusations which witness after witness has huried against them.

It was obvious that the canal facilities were inadequate and the State would lose much of the trade of the West unless it was deepened and its tocks length The Constitutional Convention could present amendments which would permit the bonding of the State for the enlargement of the Eric Canal. THE INVESTIGATING COMMITTEE TO HAVE THEM ALL BEFORE IT.

A SERIES OF SEARCHING QUESTIONS PROPOUNDED -SENATOR ERICE'S STORY OF THE ARLING-TON CONFERENCE AND TALKS WITH ME. HAVEMEYER-NOTHING KNOWN

Washington, June 15.-The Sugar Trust investigating Committee started to-day on what is considered the most direct and most important branch of the inquiry. It consists in the exate in alphabetical order as to their knowledge of or connection with dealings in Sugar stock or the sugar legislation of the Tariff bill. The committee made excellent progress, examining each of its five members and all the Senators

with few exceptions, from A to H inclusive. Before beginning the examination of their colleagues the members of the committee heard the American Sugar Refining Company, but othing new was developed from his answers.

The examination of Senators was based on a number of carefully prepared questions, so framed that the committee believes that had anything to do with the members of the Trust in connection with legislation can make even a technical denial or evasive answer of any sort without putting himself in a questionable position. These questions are as follows:

1. Have you been in attendance at the present session of Congress during the pendency of the Tariff bill in the Senate?

2. Have you given any information, directly or indirectly, to any one interested in Sugar stocks, so-called, or in the stock of the American Sugar Refining Company, that was intended or calculated to affect its value?

3. Have you bought or said directly or indi-

There was little change in the condition of Judge

When the Hamburg-American Packet Company's steamer Columbia stopped at the Quarantine boarding-station off Rosebank shortly before 5 o'clock yesterday morning, Mrs. F. von Rottenburg, Judge Phelps's daughter, descended from the side of the big ocean racer. She had been called from Germany to the bedside of her father.
All night the tugboat Governor, with Shemeld

Phelps on board, had awaited the arrival of the vessel As soon as the steamer stopped the tugboat versel As soon as the steamer stopped the tugboat ran alongside, and Mr. Phelps clambered up the steamer's accommodation laider. He held in his hands special permits from the Collector of the Port and the Health Officer, Dr. Jenkins. In a few minutes the brother and sister were on the tug, which sped swiftly up the North River. Fort Lee was reached at 7 a. m. There they took a carriage, which was in waiting, and they were hastily driven to Teaneck.

Judge Phelps railled slightly shortly after his daugnter's arrival, and regained consciousness sufficiently to recognize her. He was not able to talk to her, and soon lapsed into unconsciousness again.
